### EOC Update

August 15, 2021

#### White Rock Lake fire update 3:45 PM

Way' OKIB Community,

Our EOC took part in the afternoon EMBC call this afternoon and as you can see from the photo below, the smoke is settling into the area.

The Environment and Climate Change data indicates that winds will calm this evening and are expected to come from the northwest tomorrow steady at 20km/h gusting to 40km/h, once again calming in the evening.

BC Wildfire Service is actioning the southeast flank of the fire with heavy air support and continuing structural protection and helicopter bucketing on the northeast flank.

Our EOC does not anticipate changes to alerts or orders at this time, but will continue to monitor.

Please stay tuned, and stay safe.
