RECOVERY UPDATE

February 9, 2022

Update on Freezer Replacements

Way' Membership

The Recovery Team has completed the freezer purchase this week and the plan is to deliver them door-to-door to Band member homes on Friday, February 11 starting at 9 a.m.

- The Recovery Team will start contacting people who are on the list today, so we can plan the freezer deliveries for Friday.
- Someone will need to be home to receive the appliance.
- The freezers will be delivered to a staging area on reserve, and then Monashee Moving will deliver them door-to-door.
- If you still have an appliance that needs to be removed, please inform the team members when they contact you.

We are still in the process of requesting funding for families who have more than one freezer or fridge that was removed. Everyone on the list who had more than one fridge or freezer removed in September by RAM Environmental will be contacted to determine if they meet the criteria set out by ISC to qualify for those replacements.

If you have any questions, please contact us at 236-600-0159.
