

OKANAGAN
INDIAN BAND

Notice to CP Holders re Seasonal Residents Friday, July 30, 2021

Way' CP Holders

Okanagan Indian Band at the Emergency has issued an Evacuation Alert Operations Centre (EOC) based on the recommendation of the BC Wildfire Service.

The White Rock lake fire (K61884) has grown in size and moved into our vicinity. Because of the potential danger to life and health, the Okanagan Indian Band on July 27, 2021 issued an Evacuation Alert from the South Boundary Line to Newport Beach.

The OKIB EOC is asking you as CP holders to encourage your seasonal residents to vacate OKIB IR#1 Reserve lands voluntarily. As seasonal residents with a 2nd residence, they will not be eligible for emergency response services.

The OKIB EOC is recommending to CP Holders that **ALL** Seasonal Residents vacate reserve lands to help minimize the amount of traffic on reserve lands, as well as free up available resources such as fuel, which may become a limited commodity in the event of an emergency.

Boundaries of the evacuation alert on OKIB IR#1 Reserve run from the Southern Boundary to Newport Beach.
